This authorization includes, among other powers, the power to regulate parking on established roadways proximate to buildings on private property as necessary to provide access to the property by public safety vehicles and equipment, if the property is used for commercial purposes, the public is permitted to use the parking area, and accommodation for more than ten motor vehicles is provided, and the power to authorize the issuance of orders limiting or prohibiting parking on any township street or highway during a snow emergency declared pursuant to a snow-emergency authorization adopted under this division. All such regulations and orders shall be subject to the limitations, restrictions, and exceptions in sections 4511.01 to 4511.76 and 4513.02 to 4513.37 of the Revised Code.

A board of township trustees may adopt a general snow-emergency authorization, which becomes effective under division (B)(1) of this section, allowing the president of the board or some other person specified in the authorization to issue an order declaring a snow emergency and limiting or prohibiting parking on any township street or highway during the snow emergency. Any such order becomes effective under division (B)(2) of this section. Each general snow-emergency authorization adopted under this division shall specify the weather conditions under which a snow emergency may be declared in that township.

(B)(1) All regulations and orders, including any snow-emergency authorization established by the board under this section, except for an order declaring a snow emergency as provided in division (B)(2) of this section, shall be posted by the township fiscal officer in five conspicuous public places in the township for thirty days before becoming effective, and shall be published in a newspaper of general circulation in the township for three consecutive weeks. Parking regulations authorized by this section do not apply to any state highway unless the parking regulations are approved by the director of transportation.
