

## **Save the Clermont County Covered Bridge**

Fellow lovers of the historic 1878 Stonelick/Clermont County covered bridge! We are a snow-balling grass-roots effort to save the covered bridge from the modern rehab the county engineer is planning. We have not been listened to for the last two years, but together we WILL be heard now. If you are FOR authentic historic restoration of the bridge like over 500 other residents to date who have signed the petition (see web site below), please help. Please e-mail the commissioners and engineer today to halt this modernization project. Thank you!

### **Action Steps – together we can make a difference!**

Please send e-mails to the Clermont County Commissioners and Engineer requesting that the engineer's plan #5 to modernize the covered bridge be halted immediately and to hold a public hearing.
